

GRATINGS & CHANNELS

We supply the biggest names in the Brewing industry. Our standard system includes; a built-in fall, a durable grating, a trapped gully assembly with removable basket.

GULLYS

Hygienic, strong, attractive and functional drainage systems are where we excel in manufacturing. All parts are hand crafted by our team of highly experienced engineers using sheet stainless steel in grades 304 or 316.

ACCESS COVERS

We produce 3 different styles of access cover; recessed, Vinoseal (for use with vinyl sheet flooring) and heavy duty. All are manufactured from stainless steel in grades 304 or 316.

COMPACT CHANNELS

Our compact channel is a popular option for changing areas in leisure centres. It provides a continuous slot along its length. This non intrusive product is easily installed and maintained.
